

## Technical Skills

- JavaScript (ES6+), TypeScript, HTML, CSS
- React.js, Vite, Styled Components, Storybook, i18next
- Git (version control), GitHub Actions (auto deploy), WCAG (web accessibility), Jira (task management)

---

## Experience

Frontend Engineer - Castles Technology Co., Ltd. May 2023 - Present

- Developed **React.js** platforms for B2B clients, and built reusable UI components using **Styled Components** and **Storybook**.
- Migrated the build tool from Webpack to **Vite** by referencing official documentation, reducing server startup time and improving development efficiency.
- Studied the details of **WCAG 2.1** guidelines and analyzed the project codebase to evaluate the adjustments needed for compliance with accessibility standards.
- **Documented** development process with detailed requirements and change scopes to ensure alignment with project needs, enhancing development quality.
- **Proactively** discussed requirements with teams, ensured alignment with customer needs, and resolved issues early to streamline development.

Software Product Manager - QNAP Systems, Inc. June 2021 - May 2023

- Led development of crowd flow analysis and facial recognition software.
- Partnered with UI/UX designers and engineers to evaluate feasibility and optimize user experience.
- Authored detailed MVPs, PRDs, and marketing content to support software launches.

Software Project Manager - ASUSTeK Computer Inc. Apr 2020 - June 2021

- Led a task force to enhance software stability by collaborating with global key users to clarify and reproduce issues based on their usage scenarios.
- Presented at the annual global sales meeting, earning recognition from the sales team for significant improvements in software stability.

Hardware Product Manager - ASUSTeK Computer Inc. May 2015 - Apr 2020

- Led the development of ROG gaming keyboards and mice, analyzing market needs and collaborating with internal engineers, designers, and external ODM partners to bring concepts to market.
- One of the products earned the 2018 German iF Design Award.

---

## Education

ALPHA Camp - Full Stack Web Development Program (Specialized in frontend). Online  
Yuan Ze University - Bachelor of Business Administration. Taoyuan, Taiwan

---

## Language

Mandarin (native), English (TOEIC 840)

---

## Personal

- Host an English speaking club in my current company to promote interaction across different departments.
- Regularly publish blogs on Medium([medium.com/@bun.coding](https://medium.com/@bun.coding)) to share development experiences.
