

## Technical Skills

- JavaScript (ES6+), TypeScript, HTML, CSS
- React.js, Vite, Styled Components, Storybook, i18next
- Git (version control), GitHub Actions (auto deploy), WCAG (web accessibility), Jira (task management)

---

## Experience

- Frontend Engineer - Castles May 2023 - Present
- Developed **React.js** platforms for B2B clients, and built reusable UI components using **Styled Components** and **Storybook**.
  - Migrated the build tool from Webpack to **Vite** by referencing official documentation, reducing server startup time and improving development efficiency.
  - Studied the details of **WCAG 2.1** guidelines and analyzed the project codebase to evaluate the adjustments needed for compliance with accessibility standards.
  - **Documented** development process with detailed requirements and change scopes to ensure alignment with project needs, enhancing development quality.
  - Proactively discussed requirements with teams, ensured alignment with customer needs, and resolved issues early to streamline development.
- Software Product Manager - QNAP June 2021 - May 2023
- Led development of crowd flow analysis and facial recognition software.
  - Partnered with UI/UX designers and engineers to evaluate feasibility and optimize user experience.
  - Authored detailed MVPs, PRDs, and marketing content to support software launches.
- Software Project Manager - ASUS Apr 2020 - June 2021
- Led a task force to enhance software stability by collaborating with global key users to clarify and reproduce issues based on their usage scenarios.
  - Presented at the annual global sales meeting, earning recognition from the sales team for significant improvements in software stability.
- Hardware Product Manager - ASUS May 2015 - Apr 2020
- Led development of ROG gaming keyboards and mice, earning the 2018 German iF Design Award.

---

## Education

- ALPHA Camp - Full Stack Web Development Program (Specialized in frontend). Online  
Yuan Ze University - Bachelor of Business Administration. Taipei, Taiwan

---

## Language

Mandarin (native), English (TOEIC 840)

---

## Personal

- Host an English speaking club in my current company to promote interaction across different departments.
- Regularly publish blogs on Medium([medium.com/@bun.coding](https://medium.com/@bun.coding)) to share development experiences.
